Education

Shanghai Jiao Tong University 2025 - Present
Undergraduate in Computer Science and Technology, School of Computer Science

- Core-course academic score: 90.60; rank in major: 13/97 (Spring 2026).

Research and Project Experience

AmbiHTMLBench | Research Training Aug 2026 - Present

- Collect and organize research data for a project in large language models and machine learning.
- Perform quality checks on collected data and prepare the organized materials for experimental work.
- Contribute to the design of parts of the experimental code framework.
- Planned submission to ICLR 2027 on September 25, 2026; currently in preparation.

Summer Research Placement Jul 2026
Autonomous Driving and Automation

- Worked on algorithm design and development and system deployment.
- Conducted simulation testing and prepared technical reports documenting the research work.

Teaching and Campus Experience

Teaching Assistant | Python Fundamentals Aug 2026
2026 Zhuli Camp - served as a teaching assistant for the Python fundamentals course.

Student Assistant | Academic Affairs Jul 2026
Operations Management Office - served in a student administrative assistant role.

Honors and Awards

National English Competition for College Students May 2026
Third Prize

Shanghai Sunshine League Sports Meet Dec 2025
First Prize, Team Shuttlecock Competition

Skills and Interests

Programming: Python, C++ | Environment: Linux
Interests: artificial intelligence, large language models, algorithms and autonomous systems
Languages: Chinese, English
